

CODY STOERCK

(714) 504-4720 | Irvine, CA | cstoerck@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

Data Analyst with BI engineering experience in dimensional modeling, SQL-driven reporting workflows, cloud data warehousing, and self-service analytics. Delivered BI initiatives generating over \$1M in annual cost savings and 1,000+ annual labor hours saved. Experienced with Power BI, SQL, Snowflake, dbt, Python, Airflow, and AWS. Currently pursuing an M.S. in Analytics at Georgia Institute of Technology.

Skills

Languages: SQL, DAX, Python

Tools: Power BI, SQL Server, Snowflake, dbt, AWS, Airflow, Airbyte, Docker, Git, Tableau, Excel, ERP Systems

Applications: BI Engineering, Dashboard Development, Dimensional Modeling, Data Warehousing, Data Pipelines, ELT/ETL, Workflow Automation, ERP Data Analysis

Professional Experience

DATA ANALYST II — Srixon/Cleveland Golf | Huntington Beach, CA 2025 – Present

- Built and maintained 30+ Power BI dashboards across supply chain and operations, developing DAX measures, calculated columns, and Power Query transformations to improve executive KPI reporting and self-service BI
- Automated reporting workflow via API integration to populate delivery dates, improving report accuracy, eliminating manual data entry, and reclaiming 250 annual labor hours.
- Presented monthly reporting outcomes to the President/COO and partnered with the CFO to explain freight cost drivers and model annual savings from packaging changes
- Delivered BI initiatives generating over \$1M in annual cost savings and automation solutions saving 1,000+ annual labor hours

PRICING & BID SPECIALIST — TTM Technologies | Santa Ana, CA 2024 – 2025

- Analyzed quote history in Excel to calculate customer win rates and revenue contribution, creating data-driven metrics to prioritize high-value accounts and inform strategic pricing decisions

DATA ANALYST — Freelance 2022 – 2024

- Delivered end-to-end data analysis projects, including data cleaning, transformation, and visualization to support client decision-making

Projects

ONYX AUTO BI REPORTING PLATFORM — [Live Dashboard](#) | [Project Write-Up](#) | [GitHub](#)

Power BI, SQL, Snowflake, dbt, Airflow, Airbyte, Docker, PHP

- Built a BI reporting platform that ingests dealership operational data from MySQL to Snowflake with Airbyte, transforms raw records with dbt, and delivers Power BI reporting from curated mart tables
- Designed a star schema across dbt mart models, creating Power BI-ready dimensions, facts, and aggregates for sales, inventory, parts, and seller-risk KPI reporting
- Implemented dbt tests, documentation, and lineage to validate key identifiers, enforce model relationships, and improve trust across the BI reporting workflow
- Automated the daily pipeline with Airflow to run Airbyte syncs, execute dbt builds, refresh the Power BI semantic model, and send Microsoft Teams failure alerts

Education & Certifications

Master of Science in Analytics — Georgia Institute of Technology Summer 2027

- CS 6400: Database Systems Concepts and Design (Data Modeling, SQL, Git)
- CSE 6040: Computing for Data Analytics (Python, SQL)

AWS Certified Data Engineer – Associate (DEA-C01) — Amazon Web Services 2026

dbt Analytics Engineering Certification — dbt Labs Expected 2026

Lean Six Sigma Green Belt — The Council for Six Sigma Certification 2025

Bachelor of Arts in Psychology — California State University, Fullerton 2022
