

CODY STOERCK

(714) 504-4720 | Irvine, CA | cstoerck@gmail.com | [LinkedIn](#) | [GitHub](#) | [Website/Portfolio](#)

Analytics Engineer with hands-on experience building dimensional models, data transformation pipelines, and self-service analytics platforms delivering \$1M+ in cost savings. Proficient in SQL, Python, version-controlled workflows, and cloud data warehousing (Snowflake, Redshift). AWS Certified Data Engineer (DEA-C01). Currently pursuing M.S. in Analytics at Georgia Institute of Technology.

Skills

Languages: Python, SQL, DAX, R

Tools: AWS, dbt, Snowflake, Power BI, Tableau, Git, Excel

Applications: Data Pipelines, Data Warehousing, Data Modeling, Data Analytics & Visualization

Professional Experience

DATA ANALYST / ANALYTICS ENGINEER

2025 – Present

Srixon/Cleveland Golf – Huntington Beach, CA

- Engineered automated data pipelines integrating our carrier's API with internal systems, reducing manual report generation time by 80% and enabling near real-time delivery tracking
- Modeled package dimension alternatives uncovering \$1M+ in annual freight savings
- Built integrated freight analytics platform in Power BI combining ERP customer data with FedEx invoices and accessorial lookup tables, enabling visibility into pricing margins and shipping optimization
- Analyzed pick patterns with SQL and Power BI delivering heatmap visuals and increasing productivity by 20%

PRICING & BID SPECIALIST

2024 – 2025

TTM Technologies – Santa Ana, CA

- Analyzed quote history in Excel to calculate customer win rates and revenue contribution, creating data-driven metrics to prioritize high-value accounts and inform strategic pricing decisions
- Analyzed operational data to determine production yield projections, optimizing pricing and profitability of bids

DATA ANALYST

2022 – 2024

Freelance – Remote

- Analyzed operational data and identified process improvements for a local restaurant reducing food waste by 15%
- Conducted data cleaning, transformation, and exploratory analysis using SQL, Excel, and Tableau
- Presented customized reports and visualizations revealing key insights to empower data-driven decisions

Education & Certifications

Master of Science in Analytics (Computational Analytics) – Georgia Institute of Technology – Remote Expected 2026

- CS 6400: Database Systems Concepts and Design (Data Modeling, SQL, Git)
- CSE 6040: Computing for Data Analytics (Python, SQL)

Bachelor of Arts in Psychology – California State University, Fullerton

2022

- PSYC 300: Intermediate Research Methods and Statistics (SPSS, Statistical Tests, Research Design)

AWS Certified Data Engineer – Associate (DEA-C01) – Amazon Web Services

2026

Lean Six Sigma Green Belt – The Council for Six Sigma Certification

2025

dbt Analytics Engineering Certification – dbt Labs

Expected 2026

Projects

NETFLIX ANALYTICS ENGINEERING PIPELINE PROJECT (dbt, Python, Snowflake, SQL, Power BI, AWS)

- Architected end-to-end ELT data pipeline with AWS S3 for raw data storage, Snowflake for cloud warehousing decoupling storage and compute, dbt for SQL-based transformations, and Power BI for consumption layer
- Developed layered dbt transformation project: staging, intermediate, and mart models with explicit ref() dependencies generating automated DAG
- Designed an interactive Power BI dashboard on Snowflake dbt marts, identifying 5 high-yield genres averaging \$103M profit per film (140% above baseline) and \$20B+ market outperformance
