

CODY STOERCK

(714) 504-4720 | Irvine, CA | cstoerck@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

Analytics professional with experience building business intelligence solutions, data workflows, and reporting automation that support operational and financial decision-making. Using SQL, Python, Power BI, and cloud data tools, I have delivered initiatives generating more than \$1M in annual cost savings and saving over 1,000 labor hours annually. Currently pursuing an M.S. in Analytics at Georgia Institute of Technology.

Skills

Languages: SQL, Python, DAX

Analytics and BI: Power BI, Power Query, Tableau, Excel, Dashboard Development, KPI Reporting

Data Platforms and Engineering: Snowflake, SQL Server, dbt, Airflow, Airbyte, AWS, Docker, Git

Methods: Data Analysis, Dimensional Modeling, Data Warehousing, ETL/ELT, Workflow Automation

Professional Experience

DATA ANALYST II, BUSINESS INTELLIGENCE — Dunlop Sports Americas 2025 – Present

- Develop and manage 30+ production Power BI dashboards end to end, from SQL data extraction and semantic modeling through app deployment, gateway administration, scheduled refreshes, security, and maintenance
- Delivered supply chain and operations analytics initiatives generating over \$1M in annual cost savings and automation solutions saving 1,000+ annual labor hours
- Presented monthly analytics outcomes to the President/COO and partnered with the CFO to explain freight cost drivers and model annual savings from packaging changes
- Automated a reporting workflow through an API integration that populated delivery dates, improved data accuracy, eliminated manual entry, and reclaimed approximately 250 annual labor hours

PRICING & BID SPECIALIST — TTM Technologies 2024 – 2025

- Analyzed quote history in Excel to calculate customer win rates and revenue contribution, creating data-driven metrics to prioritize high-value accounts and inform strategic pricing decisions

DATA ANALYST — Freelance 2022 – 2024

- Delivered end-to-end data analysis projects, including data cleaning, transformation, and visualization to support client decision-making

Projects

ONYX AUTO ANALYTICS ENGINEERING PLATFORM — [Project Write-Up](#) | [GitHub](#) | [Live Dashboard](#)

SQL, Snowflake, dbt, Airbyte, Airflow, Power BI, Docker, PHP

- Built an analytics platform that ingested dealership operational data from MySQL into Snowflake with Airbyte, transformed raw records with dbt, and delivered Power BI reporting through curated mart models
- Designed staging, intermediate, and mart-layer dbt models containing reusable business logic, dimensions, facts, and aggregates for sales, inventory, parts, and seller-risk analysis
- Implemented dbt tests, documentation, and lineage to validate identifiers, enforce model relationships, and improve transparency and trust across the analytics workflow
- Orchestrated daily Airbyte synchronization, dbt builds, Power BI semantic-model refreshes, and Microsoft Teams failure alerts through Airflow

Education & Certifications

Master of Science in Analytics — Georgia Institute of Technology Expected July 2027

- CS 6400: Database Systems Concepts and Design (Data Modeling, SQL, Git)
- CSE 6040: Computing for Data Analytics (SQL, Python)

AWS Certified Data Engineer – Associate (DEA-C01) — Amazon Web Services 2026

Microsoft Certified: Power BI Data Analyst Associate (PL-300) — Microsoft 2026

dbt Analytics Engineering Certification — dbt Labs Expected August 2026

Lean Six Sigma Green Belt — The Council for Six Sigma Certification 2025

Bachelor of Arts in Psychology — California State University, Fullerton 2022
